RITESH KUMAR

Frontend Engineer | Angular 12+ • RxJS • NgRx • Tailwind CSS • Angular Material

📞 91-8210961014 | ✉️ riteshkumar.dev2@gmail.com | 💼 LinkedIn | 🐙 GitHub

🎓 B.Tech in Computer Science, MRSPTU — 2021   📍 Mohali, India

SUMMARY

- **Results-driven Frontend Engineer with 2+ years of experience delivering scalable Angular applications, focused on performance, code maintainability, and clean UI architecture.**
- **Proven track record of owning features end-to-end — from gathering requirements to deploying responsive, accessible UIs across fast-paced Agile teams.**
- **Improved page load times and delivery speed by implementing reusable components, optimizing state management (RxJS/NGRX), and driving UI consistency across projects.**

SKILLS

- **Languages & Core:** TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Angular & UI:** Angular 12–19, Angular Material, Tailwind CSS, RxJS, NgRx, AG Grid, PrimeNg
- **Dev Tools & Testing:** Git, Chrome DevTools, Jest, Karma, Postman, NPM
- **Workflow & Deployment:** REST APIs, Firebase, JWT, CI/CD (GitHub Actions), Agile

EXPERIENCE

Advanta Inc   📍 *Mohali, India*
Software Developer (Angular)   *Feb 2022 – Feb 2024*

- Developed and maintained 10+ reusable, high-performance components using Angular 12–15, Tailwind CSS, and Angular Material — cut delivery time by 25% for key product features.
- Collaborated with backend engineers to integrate REST APIs and streamline data handling workflows — minimized bugs and improved feature delivery accuracy.
- Worked closely with QA teams to identify, reproduce, and resolve critical bugs — increased deployment stability and reduced regression issues by 30%.
- Assisted in upgrading the codebase from Angular 12 to 15, refactoring modules and improving application performance and maintainability across major screens.
- Contributed to team discussions evaluating Angular upgrades, design decisions, and coding best practices — contributed to internal decisions around component design, UI consistency, and code standards.
- **Key tools**: Angular 12–15, TypeScript, RxJS, NgRx, Angular Material, Tailwind CSS, AG Grid, REST APIs, Git, Firebase, CI/CD.

Angular Trainee   *Jan 2022 – Feb 2022*

- Assisted in developing and debugging UI modules under the guidance of senior developers, gaining hands-on experience with Angular fundamentals.
- Built small reusable components and practiced data binding, routing, and service integration using Angular 11.
- Participated in code reviews and daily stand-ups to understand team workflows and clean coding practices.
- Developed a strong foundation in component-based architecture and modern frontend tooling.
- **Key tools**: Angular 11, TypeScript, HTML, CSS, Git, Chrome DevTools

PROJECTS

Resume Builder App
Angular 17, Signals, Tailwind CSS

- A dynamic resume generator powered by JSON-based layout, print-optimized design, and one-click PDF export using browser-native tools.

Style Kart – E-Commerce Web App
Angular 15, Tailwind CSS, Firebase Auth, Local Storage

- Built a responsive e-commerce app with product listing, cart functionality, and user login — developed using Angular modules and Firebase Auth for basic access control.
